

New HP LaserJet Pro M15 Printer Series OCTOBER 2017 **and HP LaserJet Pro MFP M28 Series** **World's Smallest In-Class Footprint ¹**

New HP LaserJet Pro MFP M28 series and HP LaserJet Pro M15 printer series

In October 2017, Keypoint Intelligence - Buyers Lab (BLI) was contracted by HP to conduct a study to determine if the new HP LaserJet Pro M15 printer series and the HP LaserJet Pro MFP M28 series, launching worldwide in April 2018, have “the world’s smallest in-class footprint” compared to available personal monochrome laser printers and MFPs. Using HP’s stated dimensions (13.6 inches x 7.5 inches x 6.3 inches for HP LaserJet Pro M15 printer series and 14.2 inches x 10.4 inches x 7.8 inches for HP LaserJet Pro MFP M28 series; W x D x H), BLI analysts have determined that, based on available specification data for laser models worldwide, no other in-class laser models available on the market as of this date are smaller than the new HP LaserJet Pro M15 printer series and HP LaserJet Pro MFP M28 series models.

¹ World’s smallest in-class footprint compared only to dimensions of majority of worldwide personal laser printers and MFPs (defined as monochrome laser printers ≤\$100 USD and monochrome laser MFPs ≤\$150 USD); HP internal research of printer manufacturers’ published specifications as of October 9, 2017 and Keypoint Intelligence - Buyers Lab 2017 study commissioned by HP. Market share as reported by IDC CYQ2 2017 Hardcopy Peripherals Tracker. Measured footprint for HP LaserJet Pro M15 printer series is 102.0 square inches and for HP LaserJet Pro MFP M28 series is 147.68 square inches. For details, see www.keypointintelligence.com/products/samples/new-hp-laserjet-series/

Methodology

Keypoint Intelligence is a one-stop shop for the digital imaging industry, providing unparalleled tools and unmatched depth of knowledge to cut through the noise of data and offer clients the unbiased insights and responsive tools they need.

Using BLI's extensive product database containing information on over 30,000 printers and MFPs world-wide as well as publicly available specification information, the BLI research team compiled product dimensions for in-class models (based on IDC segmentation of monochrome laser printers $\leq$ \$100 USD and monochrome laser MFPs $\leq$ \$150 USD) and calculated the total footprint area (obtained by multiplying the claimed width by the depth of the devices). While every effort was made to include the most accurate and complete information for the global printer market, some markets/regions lack complete BLI coverage due to limited engagement with vendors in those areas and/or the limited amount of publicly available spec data.

Models Included in the Sample versus HP LaserJet Pro M15 Printer Series (Smallest to Largest)

Vendor	Model Name	Width (in)	Depth (in)	Height (in)	Footprint Area (sq in)
HP Inc.	HP LaserJet Pro M15 printer series	13.60	7.50	6.30	102.000
Xerox Group	Phaser 3040	14.10	7.76	8.20	109.416

ABOUT KEYPOINT INTELLIGENCE - BUYERS LAB

Since 1961, Keypoint Intelligence - Buyers Lab (BLI) has been the leading global independent office equipment test lab and business consumer advocate. In addition to publishing the industry's most comprehensive and accurate test reports on office document imaging devices, each representing months of exhaustive hands on testing in BLI's US and UK laboratories, the company has been the leading source for extensive runnability testing on imaging media and consumables, as well as extensive specifications/pricing databases on MFPs, printers, scanners, and fax machines. BLI also has a long-standing reputation for being the industry's most trustworthy and complete source for quality testing services and global competitive intelligence.

In addition to testing over 200 office document imaging devices and related consumables annually for its subscribers, BLI provides consulting services to buyers and a range of private testing services that include document imaging device beta and pre-launch testing, performance certification testing, consumables testing (including toner, ink, fusers, and photoconductors), solutions evaluations, and imaging media runnability testing.

For more information on BLI, call (973) 797-2100, visit www.keypointintelligence.com, or email info@keypointintelligence.com.
